

Department of Podiatry - Domiciliary application form

To be completed by health care professionals ONLY

We can only provide domiciliary treatment to **TOTALLY HOUSEBOUND PATIENTS**. Patients who are physically able to travel by car/taxi/Dial-a-Ride will be expected to attend clinic.

We **do not** provide a toe nail cutting service.

The podiatry service can only provide treatment to people who fall into the following groups:

Those who have:

- A medical condition/illness that may delay damaged skin to heal e.g. diabetes, circulatory problems or rheumatoid arthritis.
- A disability/deformity which is causing foot pain and/or affects walking.
- A painful foot condition e.g. ingrown toenails, infection.

Diabetes <i>if completed by a health professional please attach annual review information</i>	Rheumatoid Arthritis	Peripheral Vascular disease	Peripheral neuropathy	History of foot ulceration
